

Getting started

Set up once — two minutes, no password ever

EVERY PLAYER

- 1 On your phone, open **padelmind.quitlosing.in** in the browser.
- 2 Enter your **email** → a **6-digit code** arrives by email (it's right in the subject line). Type it in — you're signed in.
- 3 New here? Tap **Request Access**: your name, your **WhatsApp number**, and a quick selfie. The admin approves you shortly.
- 4 Tap Share → **Add to Home Screen**. PadelMind becomes an app icon — and from now on it **opens signed-in automatically**. No codes, no links, ever again.
- 5 Look around: **My Matches** = your game reports · **GameMatch** = find & offer games and courts · 🔔 = everything happening with your games.

Do it once, from anywhere. This works from any phone, any city. The one email code is the only login you will ever do on that phone.
