

Joining a game

You want to play and need a game

PLAYER SIDE

- 1 GameMatch tab → 🎾 **Games**. The board shows open games — filter by **level, day, price**.
- 2 Tap any card for the full picture: host, skill band, time, venue, price, and **spots left**.
- 3 Tap **Request to join**. The host sees your **name only** — they may WhatsApp you first to coordinate before confirming.
- 4 Watch the 🔔 **bell**: **Accepted** → you're in, the host will message you on WhatsApp. **Declined or filled** → a polite note, keep browsing — more games are always coming up.
- 5 No game fits? Post your own ask: + **Post a Listing** → **Find a game**. It works for you for up to 7 days — hosts get pinged when your ask fits their game.
- 6 Tap 🕒 **History** any time — every match you ever made, filterable by date, visible to **you alone**.

Set your real level. Matching runs on skill bands today and on **camera-measured skill** as your recorded games add up — honest levels get you better games.
